What's New At ANEW?

March 1, 2020

The virtue for March is... sharing your talents

Special Points of Interest

Wednesday, March 15th

"The Circus" at 10:30 a.m.

March 19th

Ms. My's Birthday

March 20th

The first day of Spring!

March 27th thru April 3rd

The Minneapolis Public Schools

We are happy to congratulate Ms. Kambia who has been promoted to the Lead Teacher position in Toddler 2. She is doing a great job with her wonderful team of Ms. Azeb and Ms. Suad.

Promote Independence

We know all the families at our center love their children. Some times they love them so much, they want to do EVERYTHING for them.

Ask yourself, how will they gain independence and feel the sense of pride and accomplishment when they learn to do things for themselves. Will a kindergarten teacher with 28 other children be able to help dress your child for outdoors?

Think about expressing your love with hugs, praise and spending time together.

Encourage independence!

In March we will see "The Circus"

On Wednesday, March 18th at 10:30, Anew Dimension children will see "The Circus" . Come one, come all to the Imagination Circus! Prepare to be dazzled as the flying trapeze artist soars through the air. Gasp as the tightrope walker tiptoes across the high wire! What will Macco the Magnificent pull from his magic hat? Clowns, acrobatics, dancing and magic abound in this hilarious and entertaining story. Little clown wants to join the Imagination Circus show, but the bigger clowns tell him he's too little. He sets out to prove to them that even though he's little, he can still put on a big show!

Curriculum

At Anew Dimension we use the Creative Curriculum and the accompanying screening tool, The GOLD Assessment. These both allow us to plan activities that will enhance every child's development and make sure they are preparing for the next level whether that be Toddlers, Preschool or on to Kindergarten. Every child at our center has planned activities and goals. Ask your child's teacher to show you the lesson plan and be sure to have a conference with them when your child has a new Individual Program Plan (IPP) ready. You will see how the arts and organized play leads them to success!

Spring is Coming !

We are all very excited that Spring is just around the corner! Hopefully the weather will cooperate and the School-age children will be able to go out for some field trips over their Spring Break.

All the children are all looking forward to getting outside as the weather warms and the days get longer. They can reclaim the playground and play in the sandboxes and take the bikes out.
